Dear

Re: ENERGY REBATE

We have reviewed your application and the system shows that it was unable to carry out the automated checks required and so we will require you to email one of the following information in support of your claim.

- A recent utility bill for the address you are making an application in the form of one of the following:
 - Energy bill
 - Water bill
 - Broadband
 - TV licence
 - Mobile phone bill
- We also need a recent bank statement showing your name and addressed to the property for which you are making the application. Please note bank statements provided must match the account number and sort code you have provided on your application. Bank transactions can be blanked out; bank account statement requests are for verification purposes only.

Yours sincerely

Energy Rebate Team
