Why are we reviewing?

This review aims to update the polling district structure and designated polling stations, so that they reflect the potential changes around new and existing parish and town councils arising from the Community Governance Review, in readiness for future town and parish elections in May 2027. [The final recommendations of the CGR were agreed by Reigate and Banstead and Borough Council on 26 March 2026 are published on the Council's website.](#) It now falls to East Surrey Council to decide whether to make the legal Orders to implement these changes, with a decision expected on 14 September 2026.

This Polling Place and District Review includes:

1. Polling districts, which are the areas created by the division of wards, into smaller sections. Within each polling district a polling place can be determined which is convenient to electors.
2. Polling places, which are the locations, normally the buildings, in which polling stations are sited.

A copy of the Notice of Polling Places and Polling Districts Review can be found here [Polling Places and Polling Districts: Interim Review 2026 - downloads | Reigate and Banstead](#)

Consultation

A public consultation on these initial proposals starts on 7 August 2026 and ends on 7 September 2026. This consultation paper will be published on the Council's website. It will also be sent to Councillors, Members of Parliament, local political parties, and local people and stakeholders with expertise in disability and accessibility.

An [interactive map of these proposals](#) is available to view on our website.

All representations will be considered and responded to by the Council. They will be published in the final report with our final recommendations. The Council will consider the final recommendations and make a final decision on 1 October 2026.

The agreed polling districts will then be passed to the Electoral Registration Officer for publication in the revised Register of Electors. This register will be published on 1 December 2026.

Comments on the initial proposals may be submitted during the consultation period via email to elreg@reigate-banstead.gov.uk, or by post to Electoral Services, Town Hall, Castlefield Road, Reigate, Surrey, RH2 0SH.

Timetable for the review

As part of the review there will be a period of public consultation that runs for a 4-week period between Friday 7 August until Monday 7 September 26.

How is the review conducted?

Certain factors are taken into account when considering the suitability of the current polling districts and polling places and in identifying potential new ones.

Polling districts

The following should be considered as part of the assessment of the suitability of polling district boundaries:

- Do the polling districts follow the different electoral boundaries (such that the Returning Officer can manage the different combinations of elections and referenda within each geographical area), such as parish and town council wards, East Surrey wards, and parliamentary constituencies (both current and future)? For instance, a ward may overlap with multiple town or parish council wards, and therefore the division of polling districts within that borough ward must allow each combination of those polls to take place together, if required.
- Are the boundaries well-defined? For example, do they follow the natural boundaries of the area? If not, is it clear which properties belong in the polling district?
- Are there suitable transport links within the polling district, and how do they relate to the areas of the polling district that are most highly populated?
- Are there any obstacles to voters crossing the current polling district and reaching the polling place e.g., steep hills, major roads, railway lines, rivers?

As part of this review polling districts' codes will be renamed to align with the East Surrey ward naming scheme.

Polling places

There are a number of factors that will need to be considered when reviewing existing polling places or when assessing new polling places, including:

Factor	Consideration
Location	Is it reasonably accessible within the polling district? Does it avoid barriers for the voter such as steep hills, major roads, rivers, etc.? Are there any convenient transport links?
Size	Can it accommodate more than one polling station if required? If multiple polling stations are required, is the polling place capable of accommodating all voters and staff required to provide a good service to voters? Is the size sufficient to provide necessary private areas or privacy screens for photographic identification checks? Is the size big enough to ensure the flow of voters and reduce the risk of congestion and queues even where there is a high turnout?
Availability	Is the building readily available in the event of any unscheduled elections? Is there any possibility that the building may be demolished as part of a new development?
Accessibility	Is the building accessible to all those entitled to attend the polling place? Can the building accommodate any equipment provided to support disabled voters?

If a polling place is changed, electors will be informed in advance of any election on their poll cards and, where email addresses are known, by email.

Polling stations

When assessing the suitability of a room or area for use as a polling station, the (A)RO should consider how the size and layout would allow for the most effective throughput of voters taking into consideration the length of time it may take to check voters' photographic ID whilst ensuring the flow of voters and reducing the risk of congestion and queues. Those instances where there is a high number of electors in the polling station at any one time on polling day should also be considered.

Each polling station should be designed to provide suitable conditions:

- for the elector to show their photographic identification in private if requested as well as vote in private
- for staff to conduct elections in an efficient and effective manner and
- for those entitled to observe the voting process to do so without compromising the secrecy of the ballot
- avoid the use of temporary buildings.

Use of schools

The Returning Officer's policy is to avoid the use of schools as polling places where practicable. Where no suitable alternative is available, the Returning Officer is entitled to use, free of charge, schools maintained or assisted by a local authority as well as those schools that receive grants made out of moneys provided by Parliament.

This includes academies and free schools.

What can't be considered?

- Further changes to parliamentary constituency, town/parish ward and East Surrey ward boundaries. This review is concerned only with the arrangement of polling places and polling districts; however, it must have regard to the arrangement of those other electoral boundaries and ensure the polling district boundaries align with those for the proper conduct of elections and referenda.
- Community identity – whilst this is a relevant consideration for an electoral boundary review (e.g. when making changes to East Surrey wards, parliamentary constituencies and town/parish ward boundaries), it is not relevant for the purposes of a polling place and polling district review, which is an incidental process to ensure that the arrangement of polling places and districts are:
 - Convenient for voters; and,
 - Efficient for the Returning Officer to conduct elections according to those boundaries.

Constraints

The new polling district design must take account of the following:

- between 1 December 2026 - 31 March 2027, the polling district design must support the production of RBBC Borough ward registers
- between 1 December 2026 - 31 March 2027, the polling district design must support the production of Surrey County Council division registers
- between 1 December 2026 – 6 May 2027 the polling district design must continue to support the production of Horley Town Council electoral registers in their current arrangement.

As a result, some polling districts cannot be combined or rationalised.

Annex 1 - Summary of initial proposals - changes recommended by the Returning Officer & CGR Requirements

East Surrey Ward	Polling Station Voters as at 20 July 2026	Polling Districts	Proposed change(s) to polling district(s) and/or polling place(s)	Reason(s)	Impact of recommended change(s)
Banstead, Woodmansterne and Chipstead	9,357	BAN1, BAN2, BAN3, CKW1, CKW2	1. None	For information only: This ward and all its polling districts/stations will be within the Banstead & The Villages Parish Council area.	
Earlswood and Reigate South	8,698	EWB4, EWB5, SPW1, SPW2, SPW3, SPW4, SPW5	2. To merge SPW3, SPW5 into one polling district, named 'SPW3'.	SPW3 and SPW5 are currently designated to the same polling place (Woodhatch Community Centre) which is used as a 'double station' supporting two polling stations within one place, however there is in imbalance between the electorates assigned to each polling station. SPW3 contains approximately 819 polling station electors, polling station, and SPW5 contains approximately polling station 1,556 electors. It is therefore recommended that these two polling districts be combined into one polling district so that the register can be split equally between two polling stations at the Woodhatch Community Centre. Consolidating the number of polling districts, except where required by dividing electoral boundaries, enables greater equality to be achieved between the electorates allocated to each polling station at a polling place; and, reduces the number of separate registers to be published.	No impact on electors arising from these recommendations. Electors within the SPW3 and SPW5 polling districts ordinarily vote at the Woodhatch Community Centre, which is not recommended to change. These changes align with the Reigate Town Council boundary. The impact of these changes on the administration of elections will improve the balance of the electorate allocated between the two polling stations located at the Woodhatch Community
Earlswood and Reigate South	8,698	EWB4, EWB5, SPW1, SPW2, SPW3, SPW4, SPW5	3. Rename EWB4 to EWB3 and rename EWB5 to EWB4	This is due to the merger of EWB1 and EWB3 (see point 14 below).	No impact on electors
Earlswood and Reigate South	8,698	EWB4, EWB5, SPW1, SPW2, SPW3, SPW4, SPW5	4. None	For information only: EWB4 & EWB5 will be within the Redhill Town Council area and SPW1-5 will be within the Reigate Town Council area.	
Horley East	10,102	HRC1, HRC2, HRC3, HRC4, HRE3, HRE5.	5. To split HRC2 into 2 polling districts, HRC2A & HRC2B and designate Horley Library as the polling place for HRC2B	CGR Requirement In the CGR scheme for Horley Town Council HRC2 is split in two, with its northerly section, HRC2A, allocated to the Horley Central ward with HRC1 & HRE5. The southerly section, HRC2B, will be allocated to the Horley South ward with HRC3. It is recommended that the polling place for HRC2B moves from Horley Community Centre on Albert Road to Horley Library, which is also the designated polling place for HRC3. There are approximately 621 polling station electors in HRC2B.	621 electors will have their polling station changed to a venue, Horley Library, which is closer.

East Surrey Ward	Polling Station Voters as at 20 July 2026	Polling Districts	Proposed change(s) to polling district(s) and/or polling place(s)	Reason(s)	Impact of recommended change(s)
				By redesignating HRC2B this will reduce the number of ballot boxes and ballot books required in the Horley Community Centre thus simplifying the voter experience and reducing complexity at the station. There is no change to the polling station for HRC2A, Horley Community Centre.	
Horley East	10,102	HRC1, HRC2, HRC3, HRC4, HRE3, HRE5.	6. To split HRC4 into 2 polling districts, HRC4A & HRC4B, and designate Tanyard Barn as the polling station for HRC4A	CGR Requirement In the CGR scheme for Horley Town Council HRC4 is split in two, with its northerly section, HRC4A, allocated to the Horley North East ward. The southerly section, HRC4B, will be allocated to the Horley South East ward. We propose to move electors in the HRC4A area, approx. 191 electors to Tanyard Barn from St Francis polling place. By redesignating HRC4A this will reduce the number of ballot boxes and ballot books required in the St Francis polling station thus simplifying the voter experience and reducing complexity at the station.	191 electors will have a different polling station. To view the changes to journey times please refer to Appendix B, HRC4A – Walking time to Polling Stations
Horley East	10,102	HRC1, HRC2, HRC3, HRC4, HRE3, HRE5.	7. To move HRE5 from the Tanyard Barn polling place to the Edmonds Hall, Horley Town Council, Albert Road	HRE5 is in the Horley Central ward of Horley Town Council and is currently allocated to the Tanyard Barn polling place which also serves the Horley North East ward. By moving HRE5 this will reduce the number of ballot boxes and ballot books in Tanyard Barn thus simplifying the voter experience and reducing complexity at the station.	150 polling station electors in HRE5 will have their polling place changed. Minimal impact on journey distances. Horley East	10,102	HRC1, HRC2, HRC3, HRC4, HRE3, HRE5.	8. None	For information only: Note: All polling districts in this ward will be within the Horley Town Council area (no change).	
Horley West, Salfords and Sidlow	10,012	HRE1, HRE2, HRE4, HRW1, HRW2, HRW3, HRW4	9. Move HRE4 polling district from Tanyard Barn polling place to St Wilfrid's Church.	The current designated polling place for the HRE4 polling district is Tanyard Barn Community Centre, which is in the East Surrey Horley East ward. By moving HRE4 this will reduce the number of ballot boxes and ballot books in Tanyard Barn and simplify the voter experience. HRE4 and HRW2 are allocated to the same Horley Town Council ward, Horley North	Minimal impact on journey distances. There are 416 polling station electors in HRE4. By designating St Wilfrid's as the polling place for HRE4 and HRW2, the combined electorate will be 2,537 polling station electors. Therefore, it is recommended that St Wilfrid's is split into a

Note: Polling districts HRE1, HRE2 & HRW1 will be within the Salfords & Sidlow parish council area (no change). Polling districts HRE4, HRW2-4 will be within the Horley Town Council area (no change).	
	9,534	CKW3, KTW3, KTW4, HMN1, HMN2, HMN3, HMN4, HMN5, HMN6, HMN7,	11. Redesignate the polling place for CKW3 from Chipstead Bowling Club to the Church of the Wisdom of God.	CKW3 is a rural district with 207 polling station electors. CKW2 and CKW3 currently share Chipstead Bowling Club as their polling place. Following the County Boundary Review and Community Governance Review, the two polling districts are no longer within the same East Surrey ward or town council ward. Given the absence of a common electoral geography, sharing a polling place no longer appears appropriate. Therefore, we propose re-designating the polling place for CKW3 to the Church of the Wisdom of God which also serves KTW3/4. This will reduce the number of ballot boxes and ballot books in Chipstead Bowling Club, simplify the voter experience and reduce administration in that polling station. Post 1 st April 2027, it will be feasible to merge CKW3 & KTW3, as borough wards will no longer exist.	Approximately 207 polling station electors in CKW3 impacted. Some voters may have to travel further to their polling station, please refer to Appendix A. CKW3 - Analysis of Journeys to Polling Places The combined electorate at the Church of the Wisdom of God will increase to approximately 2,097 polling station electors.

These two polling districts fall into the Redhill Town Council area. Earlswood Baptist Church is used as a 'double station', wherein the register is split equally between two polling stations, ensuring that the Returning Officer complies with the Electoral Commission's electorate ratios for each polling station.	No impact on electors arising from these recommendations. The impact of these changes on the administration of elections will improve the balance of the electorate allocated between the two polling

To move the polling station for RGT4A & RGT5 from Colman Redland Centre to Donyngs Indoor Bowls Club	As part of the County boundary review, polling districts RGT4A & RGT5 were allocated to the Redhill West & Meadvale ward, prior to that they were in the Surrey CC Reigate ward. It is proposed that the polling place is changed for these polling districts so that electors are voting in the relevant ward for both East Surrey and Redhill Town Council elections. If the polling place for RGT4/RGT5A is not re-designated, polling staff at the Colman Redland Centre will be required to administer two different Town Councils and three different town council wards during town council elections, and two different wards during East Surrey elections. This will lead to voter confusion and increased administration for polling station staff. By re-designating the polling place this will reduce the number of ballot boxes and ballot books in Colman Redland Centre thus simplifying the voter experience and reducing complexity at that station.	1,158 polling station electors will see their polling place change. Rename all polling districts to reflect East Surrey ward names	Currently the polling district naming scheme is based on the Reigate & Banstead Borough Council ward names. From 1 April 2027 this will no longer be relevant. It is therefore proposed to align the polling district naming scheme to reflect the East Surrey ward names. See Appendix C. Proposed Polling District Naming Scheme for the proposed polling district naming scheme,	A clearer, organised naming scheme based on East Surrey ward names.

Annex 2: Initial proposal maps

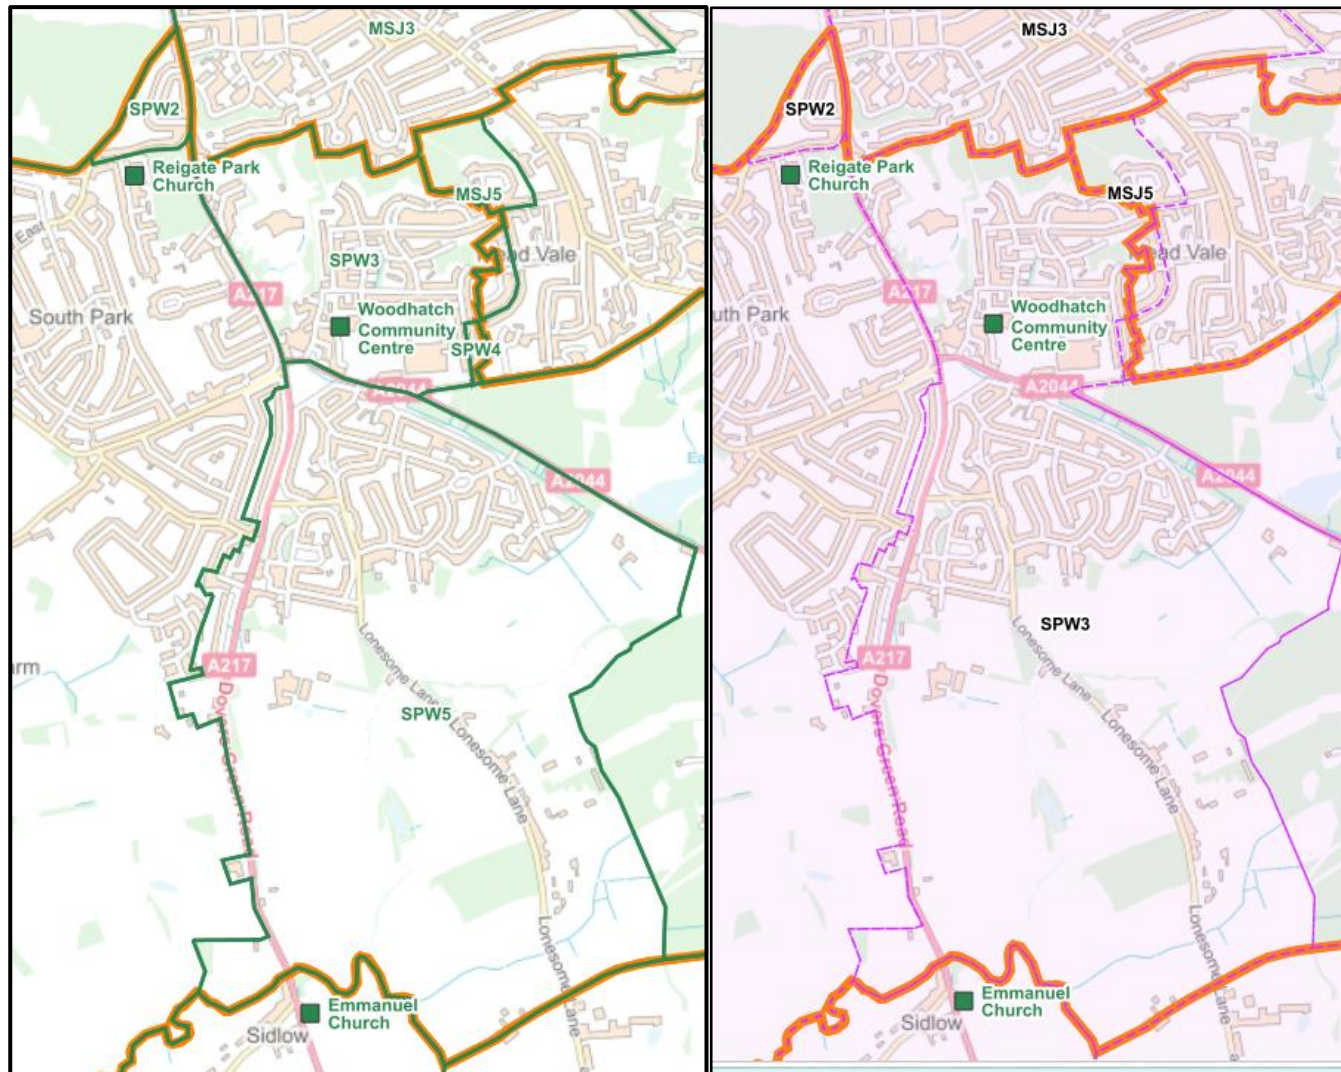

Banstead, Woodmansterne and Chipstead
